CityNet Disaster Cluster Seminar

Rethink Resilience • Resilience in Action

# 1. CITYNET-PLUS ARTS OFFICE WELCOMES NEW INTERN.

In May 2023, a new Canadian intern joined the Plus Arts Kobe office from the University of Victoria. Kai Kristiansen is studying in his fourth year of business, following his passion for sustainable business practices and global relations. He greatly looks forward to working for PlusArts over the coming months.

*Kai Kristiansen, the new intern who will work at the CityNet Kobe Office through August 2023.*

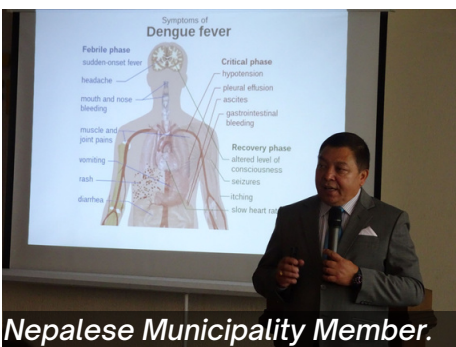

CityNet-PlusArts is proud to have held a strong partnership with The University of Victoria for several years, leading to the successful integration of interns who assist in the daily operations.

*Workshop in Nepal.*

*Minister of Health Department.*

*Nepalese Municipality Member.*

## 2. WORKSHOP ON DENGUE AND COVID-19 COMMENCES FOR NEPALESE MUNICIPALITIES

As a part of JICA supported project on developing IEC (Information Education and Communication) material for schools, workshop to share the details on Dengue and COVID-19 started in Lalitpur. Two experts from Lalitpur Metropolitan city presented on their experiences and ways for prevention and treatment.

Many urban areas in Nepal including Lalitpur had severe cases of Dengue last year which was not common. Therefore, the municipalities and its schools are trying to raise awareness and promote prevention practices as much as possible.

The teachers representing five municipalities have previously developed several material on DRR education. This is their first attempt at developing educational material related to diseases. Upon completing the workshop, the material will be tested among the students and the communities. Further updates will be shared in the June e-News.
